Dear ToyMakers:

I'm not sure that you have any idea what a difference your wonderful wooden toys make for the children we take care of in Tampa General Hospital's Children's Medical Center. Those of you who have come here to deliver the toys, though, must have an idea.

Some of the children we care for come to the hospital without any toys of their own. These are the ones that on whom your gifts make the greatest impact.

These beautiful toys are not only fun for them to play with, but also ones that last long after they go home. We have had some of our sickest children ask if they get a new toy the next time that they are admitted to the hospital.

It is especially fun to give one of the helicopters or ambulances to children who arrive in the Emergency Department via Aeromed (Tampa General's medical helicopters) or by ambulance.

From all of us at Tampa general, a big thank you to all of you at ToyMakers for giving your time and talents to put smiles on the faces of our patients.

Sincerely,
